PRICES

This List is intended for the TRADE and should be found only in the hands of people who buy our products for resale at a profit.

We price "Per Each," "Per 10," and "Per 100." To obtain the lowest published price on Naked Root deciduous stock your order must consist of at least fifty plants and not less than ten of a variety or grade.

Orders for less than ten of a variety or grade, will be invoiced at an **ADVANCE of 25% OVER THE TEN RATE, REGARDLESS OF THE SIZE OF THE ORDER**, except in Conifers and Broadleaved Evergreens where the "Each" and "Per 10" rates apply.

Prices do not include packing charges (except as noted above under "cash-with-order" terms). For cost of bales and boxes see Page 4.

All Prices are Subject to Market Changes.

GRADES

We grade liberally. All shrubs of specified sizes are well furnished and well rooted. Culls are as rigidly excluded from the lightest grades listed as from the heavier stock. Our rule is, "**WHEN IN DOUBT, PUT IT IN THE LOWER GRADE.**" Detailed information as to method of grading Hedge Plants and Roses is given under such heads.

TRANSPORTATION RISKS

While we use every means at our command to secure prompt delivery, **WE ARE NOT LIABLE FOR DELAYS IN TRANSIT; OUR RESPONSIBILITY ENDS UPON DELIVERY IN GOOD ORDER TO CARRIER.** Remedy for loss must lie between the buyer and the carrier, but we will gladly render all the aid we can.

CLAIMS

All claims must be made immediately after receipt of stock.

LIABILITY and NON-WARRANTY

All quotations are for immediate acceptance and subject to stock being sold. All bookings are without liability to us should injury befall stock from frost, hail, fire or other causes beyond our control, and subject to the standard form Non-Warranty Clause which reads: **"We give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any nursery stock, seeds or bulbs we sell."**

COMBINATION CARLOAD SHIPMENTS

When possible we combine shipments into carloads for distribution at Chicago, Cincinnati, Rochester and St. Louis, often to other points, giving you benefit of c/l freight rate, plus the handling charge billed us by transfer companies, and quick through refrigerator car service.

76-A. TREE PAINT — "43 For The Tree":

Cut not available for this catalogue.

This is designed primarily for use in painting stubs and surfaces after pruning, or for painting of cavities before filling. It is used very successfully by many tree surgeons and landscape gardeners. A can of it should be in the kit of every home owner who uses pruning saws and shears. It is most healing in its effect. Comes in either PLASTIC or LIQUID form.

LIQUID FORM is a heavy liquid that forms an airtight coating, and should be applied on all pruned surfaces where the limb is ½-in. in diameter or larger. The medicinal oils penetrate into all parts of the cut or wound. The acids and disinfectant odors will drive away, worms.

PLASTIC FORM is used in filling small cavities, cracks, crotches, etc.

Prices are the same on both LIQUID and PLASTIC. **State which is wanted.**
